

### ePort<sup>®</sup> G8

**G8 Reader**

**G8 Controller**

- Two-piece design - Reader Bezel can be mounted in the standard bill validator opening or surface mounted separately up to 3 feet away.
- Remote, over-the-air (OTA) software update capability.
- Magnetic card reader with contactless capabilities including NFC, PayPass<sup>®</sup>, payWave, Zip, and ExpressPay and all traditional credit/debit cards.
- Ability to read First Data's GO-Tag<sup>™</sup>, a smart paper-thin, stamp-sized sticker enabling contactless transactions.
- Stored value, pre-paid programs.
- 16x2 LCD display and LED indicator for transaction status.
- For consumers, a "COMPLETE" button to finish or cancel transactions.
- Bright, flashing blue attract LEDs.
- A "SERVICE" button.
- A "FILL/DEX" button.
- An "END" button.
- A dedicated RSSI button for signal strength testing.
- MDB Interface.
- Integrated DEX interface port (no separate cables needed).
- Diagnostic Display on unit to simplify configuration.
- Available as an audit-only device.
- Supports isolated pulse interface with configurable timing to simulate coin mechanisms and bill validators.
- Water resistant.
- Supports multiple mounting configurations.
- External relay control so you can turn on an external device with a credit card.
